

2016 Intellectual Property Career Showcase

October 26TH

2:00 - 7:30 p.m.

Bill Moore Student Success Center

IPCAREERSHOWCASE.COM

What is this fabulous opportunity?

It's a chance to learn about career opportunities within intellectual property (IP) from IP professionals from the United States Patent and Trademark office, local law firms, practicing attorneys, judges, etc. The event schedule includes five panel sessions followed by a networking reception. Discover what professional opportunities are available within IP.

Who should come to this event?

All undergraduates (any major), graduate students (any discipline), post-docs, alumni, and employees of Georgia Tech, Georgia State, and other universities interested in learning more about possible career opportunities should come.

How much is it?

It's free! Yes, free! But you have to register to attend.

Why do I have to register for a free event?

Space is limited, and we want your experience to include having a seat. If you do not register, you may come, but you might have to wait until we determine that seats are available. We also want to make sure we have enough food and drink for everyone. *Registration closes October 18, 2016.*

Did you say food and drink?

Yes! We will provide snacks and water during the panel sessions and then a full networking reception with dinner-type food and non-alcoholic drinks.

Where can I find out who the specific panelists will be? Where can I register?

ipcareershowcase.com

Will I be able to network and talk to the panelists?

Yes, the networking reception is meant to give you the chance to do just that.

What if I can't come for the whole event?

That's OK. You can register for the panel sessions you can attend and the networking reception individually. If you have class and need to come back, that's OK too.

Who can answer my other questions?

Susan Belmonte, Georgia Tech Pre-Law Advisor, sbelmonte@gatech.edu

It's free? Food and drink included? Why wouldn't I go?

We don't know.
